

# A-IMBN - AMBO

**(Asia-Pacific International Molecular Biology  
Network - Asian Molecular Biology Organization)**

## **International Training Course**

### **Training Camp on Infectious Disease Threats May 14-20, 2006**

International Research Center for Infectious Diseases  
Institute of Medical Science, University of Tokyo

#### **Lecturers (tentative)**

Dr. Aikichi Iwamoto (Research Hospital, Division of Infectious Diseases)  
Dr. Chieko Kai (Laboratory Research Animal Center)  
Dr. Hiroshi Kiyono (Division of Mucosal Immunology)  
Dr. Yoshihiro Kawaoka (International Research Center for Infectious Diseases)  
Dr. Tetsuro Matano (International Research Center for Infectious Diseases)  
Dr. Ichiro Nakagawa (International Research Center for Infectious Diseases)

#### **Laboratory Courses**

1. Molecular manipulation and visualization of herpes simplex virus  
(Dr. Yasushi Kawaguchi)
2. Molecular genetics of bacteria and cellular microbiology  
(Dr. Ichiro Nakagawa)
3. Measurement of antigen-specific immune responses (Dr. Tetsuo Matano)

Organized by International Research Center for Infectious Diseases, Institute of Medical Science, University of Tokyo.

**Supported by the Asia-Pacific International Molecular Biology Network (A-IMBN),  
The Protein Research Foundation and Institute of Medical Science, University of  
Tokyo.**

Application must arrive by April 10, 2006. Mail to  
Dr. Yoshihiro Kawaoka  
International Research Center for Infectious Diseases,  
Institute of Medical Science, University of Tokyo  
4-6-1, Shirokanedai, Minato-ku, Tokyo 108-8639, Japan
