

*International Vaccine Design Center*

# Division of Systems Immunology (Human Immune-Profiling Team)

ヒト免疫プロファイリング系・数理免疫学分野

| Professor Kei Sato, Ph.D.

| 教授 博士(医学) 佐藤 佳

*The aim of this laboratory is to launch an interdisciplinary research network to “quantitatively” understand the behaviors of pathogens and the immune reaction against pathogen infection. Our study will connect microbiology and immunology, which will lead to the development of novel vaccines in the future.*
