

# IMSUT-Zhejiang University International Joint Mini Symposium "At the Forefront of Cancer Research"

Date November 19<sup>th</sup>, 2024  
Venue IMSUT Auditorium

The Institute of Medical Science  
The University of Tokyo

9:30- Opening remarks

9:35- Makoto Nakanishi (IMSUT)

Role of senescent cancer stromal cells in cancer progression

9:55- Yi Sun (Zhejiang University School of Medicine)

Target Neddylation and Cullin RING Ligase for Anti-cancer Therapy

10:15- Noriko Gotoh (Cancer Research Institute, Kanazawa University)

Heterogenous breast cancer stem cells sustain in primary and metastatic cancer stem cell niches

10:35- Pumin Zhang (Zhejiang University School of Medicine)

Targeting the Ubiquitin-proteasome System for Cancer Therapy

10:55- Atsushi Iwama (IMSUT)

Targeting therapy-resistant subpopulation with vulnerability to splicing pathway inhibition in multiple myeloma

11:15- Tatsuhiro Shibata (IMSUT)

Comprehensive genomic analysis of gastric cancer

11:35- Zhimin Lu (Zhejiang University School of Medicine)

Metabolic Reprogramming and Immune Evasion in Cancer

11:55- Closing remarks

Organized by the Institute of Medical Science, the University of Tokyo (IMSUT)  
& International Joint Usage/Research Center, IMSUT
