IMSUT Founding Commemorative Symposium

May 30 (Fri.) 13:00 ~ 17:00
Main Auditorium, Building 1
In-person and online

Frontiers in Hematology Research

1 NGS analysis of clinical specimens of hematological diseases and elucidation of pathogenesis

Yasuhiro Nannya

Professor, Division of Hematopoietic Disease Control, Institute of Medical Science, The University of Tokyo

2 Recent advances in CAR-T cell therapy

Yuki Kagoya

Professor, Division of Tumor Immunology, Institute for Advanced Medical Research, Keio University School of Medicine

3 Self-renewal and aging of hematopoietic stem cells

Keiyo Takubo

Professor, Department of Cell Fate Biology and Stem Cell Medicine, Tohoku University Graduate School of Medicine
Chief, Department of Stem Cell Biology, National Institute of Global Health and Medicine, Japan Institute for Health Security

4 Prediction of hematopoietic stem cell function and update of cloning system

Satoshi Yamazaki

Professor, Division of Cell Regulation, The Institute of Medical Science, The University of Tokyo

5 A compendium of functional genetic elements in diverse acute leukemias

Yasuhiro Murakawa

Professor, Department of Medical Systems Biology, ASHBI Institute for the Advanced Study of Human Biology, Kyoto University
