

Molecular Basis and Physiological Functions of Expression Control Revealed by Structural Biology

PROGRAM

13:00–13:05	Opening remarks Yasushi Kawaguchi <i>Division of Molecular Virology, IMSUT, The University of Tokyo</i>
13:05–13:45	Roland Beckmann <i>Gene Center & Department of Biochemistry, LMU Munich</i>
13:45–14:15	Tomoya Kujirai <i>Institute for Quantitative Biosciences, The University of Tokyo</i>
14:15–14:45	Yuhei Maruzuru <i>Division of Molecular Virology, IMSUT, The University of Tokyo</i>
14:45–15:05	Toru Suzuki <i>Division of RNA and Gene Regulation, IMSUT, The University of Tokyo</i>
15:05–15:25	Sihan Li <i>Division of RNA and Gene Regulation, IMSUT, The University of Tokyo</i>
15:25–15:50	COFFEE BREAK
15:50–16:30	Daniel N. Wilson <i>Institute of Biochemistry & Molecular Biology, University of Hamburg</i>
16:30–17:00	Yuzuru Itoh <i>Graduate School of Biomedical and Health Sciences, Hiroshima University</i>
17:00–17:30	Taeko Kobayashi <i>Division of Protein Metabolism, IMSUT, The University of Tokyo</i>
17:30–17:50	Satoshi Hashimoto <i>Division of RNA and Gene Regulation, IMSUT, The University of Tokyo</i>
17:50–18:20	Toshifumi Inada <i>Division of RNA and Gene Regulation, IMSUT, The University of Tokyo</i>
